NEW TO HALCO

KARCASS MICRO

HALCO TECHNOLOGY

The more they chew the better they look! Our Designed to Bleed concept means our chrome colours are painted with a red layer underneath, imitating an injured baitfish as the wear and tear naturally takes place (from all the fish you catch!).

After years of jumping hurdles, we have finally managed to develop the Invisi Glo process. This allows some of our lure colours to glow strongly in the dark, without affecting their normal daytime appearance!

A heap of our lures are UV reactant and start humming when the purple light hits them! Similar to Invisi Glo, this UV reactant does not affect the normal appearance of the lures.

Halco bibs are bloody tough. Made out of the same polycarbonate material as bulletproof glass and combined with our unique, glueless bib locking method, our bibs are up for the fight.

Halco Triple Turn fish rings are 70% stronger than your traditional split ring. The extra turn eliminates the soft spot, and gives you the confidence and ability to go heavier and harder.

Madeye's Rubber Stretch Technology is a unique rubber copolymer that has multiple advantages over soft plastics. RST is up to five times more durable than standard material, and is also buoyant, enabling the lure to float and wriggle when sitting on the bottom.

OUR DESIGNED TO BLEED FEATURE IN ACTION

KARCASS MICRO™

Karcass just went MICRO! Fish amongst pylons, jetties and shallow structure are no longer safe. Four sizes and eight colours means there's an option for everything in the range. Every Karcass Micro comes rigged with twin BKK flash assist hooks and features a realistic, three dimensional side design.

HALCO FISH RING PLIERS

At Halco, we put millions of fish rings on our products every year. It goes without saying that we need easy to use pliers that don't stretch the ring when applying it to the lure, or when changing out a treble. We have developed and refined this truly unique and patented design to give optimal performance and long lasting service as they do for us in the factory.

Madeye's RST (Rubber Stretch Technology) is a unique rubber copolymer that has two advantages over standard soft plastics.

RST is up to five times more durable than standard plastic, and is also buoyant, enabling the lure to float and wriggle when sitting on the bottom.

PADDLE PRAWN™

SIZE	7.62CM + 4"/ 10.16cm + 5" / 12.7CM + 7" / 17.8CM

10 BAITS P/PACK + 6 BAITS P/PACK + 5 BAITS P/PACK + 4 BAITS P/PACK

- Thin, lightweight and durable tail
- Paddle tail sends IRRESISTIBLE vibrations through water
- Legs & feelers add to natural appeal
- RST to outfish and outlast

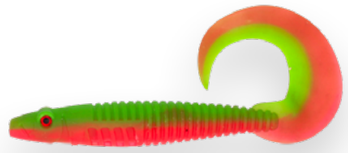

FLICK STICK™

SIZE	7.62CM + 5" / 12.7CM + 8" / 20.32CM

10 BAITS P/PACK + 5 BAITS P/PACK + 3 BAITS P/PACK

- RST withstands repeated strikes
- Designed to replicate darting baitfish
